

I hope you're getting ready for Christmas! We've been very busy for a while making all sorts of great toys and games for all the boys and girls. With all the work we have to do to get ready for Christmas Eve, you'd think the elves would get tired but they're not. They just love building and painting toys and games.

I just checked my list and your name appears on the Nice list. Good work! It's really not all that hard to be nice to people and to work hard at school. Keep it up all year round and you'll always be on my Nice list!

Mrs. Claus is busy helping out as well in the workshop. My favorite is when she brings us all a nice cup of hot chocolate and some of her home baked cookies. Sometimes it's hard to get back to work after because those cookies are soooo good. But since we don't want to disappoint all the good girls and boys we always make our way back to the workshop.

I've been taking the reindeer out for a few test spins around the North Pole so that they're ready for the big trip. They love flying on Christmas Eve. Even Rudolph has his nose ready to go. You never know when we might hit a snowstorm and need him to help us find our way.

I've got to get back to work now so be good and have yourself a wonderful Christmas.

Your friend,

*Santa*
